

# A Framework for Research in Emerging Adults

*Stepped Care Project for Clinical High Risk*

**This study is recruiting young people who are concerned about the possibility of developing psychosis to take part in therapy**

**You may be eligible for this study if you meet the following criteria:**

- Ages 12-25
- Noticing a recent change in thinking, behaviour, or experiences, such as:
  - Confusion about what is real or imaginary
  - Feeling not in control of your own thoughts or ideas
  - Feeling suspicious or paranoid
  - Having experiences that may not be real, such as hearing sounds or seeing things that may not be there
  - Having trouble communicating clearly
- Or if you have a family member with psychosis and you are experiencing problems with your functioning
